The objectives of the NVR Standards 2015 are to ensure nationally consistent, high-quality training and assessment services for the clients of Australia's Vocational Education and Training (VET) system.

Student Overview

Standards for Registers Training Organisations

Purpose and Operation

The objectives of the standards are to ensure nationally consistent, high-quality training and assessment services for the clients of Australia's Vocational Education and Training (VET) system.

Compliance with the standards is a condition for all NVR registered training organisations and for applicants seeking registration under the NVR Act 2011.

A Focus on Outcomes

The standards and their elements specify the key requirements to be met by each RTO. The standards for registered training organisations do not specify detailed processes but explain the outcomes to be achieved through the application of each standard. An RTO must be able to show, through systematic approaches to management and continuous improvement, that it is focused on improving its outcomes in relation to each standard.

The quality indicator and competency completion reports support the outcome's focus on the standards by giving an overall picture of how well an RTO is meeting client needs. You will be required to complete this at the end of your course.

A Systematic Approach

A systematic approach to the management and delivery of services helps an RTO to meet the registration requirements throughout the registration period. Systematic approaches are planned, purposeful and repeatable actions to improve products and services for clients.

Continuous Improvement

Continuous improvement is an integral part of the Standards. Continuous improvement processes refer to the continual enhancement of an RTO's performance so that the changing needs of clients and industry continue to be met. Continuous improvement does not relate to actions to achieve compliance as such actions are considered rectifications.

An effective quality system includes processes that encourage and achieve continuous improvement. For RTOs this means developing a planned and on-going process to systematically review and improve policies, procedures, products and services through analysis of relevant information and collection of data from clients and other interested parties, including staff. Data from the quality indicators provides a key tool for continuous improvement.

The value for RTOs of adopting a continuous improvement cycle is in its potential to create a stronger, more sustainable business that meets the needs of clients and stakeholders. Such a cycle also enables RTOs to adapt quickly to changing external environments, such as economic factors and skills needs. Types of continuous improvement processes and tools are not prescribed and RTOs have the flexibility to consider their own business context and make improvements based on feedback from their clients and stakeholders.

Access and Equity

The National Skills Framework has a strong focus on providing opportunities for everyone to access and participate in learning, and to achieve their learning outcomes. MIBT is committed to integrating Access and Equity principles within all our services that we provide to our clients. All staff recognise the rights of students and provide information, advice and support this is consistent with our policies and procedures.

Regardless of cultural background, religion, gender, sexuality, disability, location or age you have the right to learn in an environment that is free from discrimination and harassment and be treated in a fair and considerate manner while you are studying with us.

Specific details of the pre-requisites pertaining to these training programs are contained in individual course documentation and are made available prior to enrolment. In the case that a potential student does not meet the pre-requisite conditions, MIBT staff will endeavour to assist them in understanding their options in regards to meeting the standards. Trainers or MIBT management can address any questions regarding pre-requisites.

The enrolment procedure commences when a student contacts MIBT expressing interest in a training program(s). The student will discuss with a qualified assessor all options available for all training and assessment processes. MIBT staff will then provide a brochure outlining fees and charges, enrolment form, student handbook and course information.

Enrolment applications will then be assessed to ensure that the student meets any pre-requisites that have been set for the selected course. Students will be informed of successful enrolment and sent information on the course and their course induction. Students who do not meet the pre-requisites for the selected course will be notified of their unsuccessful enrolment and invited to contact MIBT to discuss their training needs and alternative opportunities.

Language, Literacy and Numeracy (LLN) Assistance

MIBT is committed to ensuring accessibility to all perspective students for the training course we provide.

We also recognise that at time language and literacy problems may restrict a person from achieving the competencies required for a particular course or program.

MIBT will make every effort to assess a perspective client/students ability to carry out all the learning tasks and required assessments before enrolment. Where possible, the learning activities/assessments may be modified to compensate for those with literacy or numeracy skill needs. Please refer to our Language, Literacy and Numeracy Policy for further information.

Recognition of Qualifications Policy

MIBT will recognise all AQF qualifications and statements of attainment issued by any other RTO. If any ambiguity is detected when validating a student's certification, MIBT will seek verification from the relevant RTO before recognising the qualification or statement of attainment.

If you believe you have relevant skills and abilities that you have learned in your past please contact an MIBT assessor representative. RPL must be completed within 13 weeks since being signed up. If the assessment is not completed within required timeframe, a re-enrolment fee will be charged at \$125.00 per month or part thereof.

Credit Transfer

Credit transfer refers to the transferral of academic credit obtained by students through participation in courses or national training package qualifications with other RTOs, towards a qualification offered by MIBT. Credit transfer is granted on the basis that the credit validates the student's competency within the relevant qualification / unit of competence. Credit transfer of a qualification / unit of competence is available to all students enrolling in any training program offered by MIBT.

Issuance of Certificates and Statements of Attainment

MIBT will issue AQF qualifications and Statements of Attainment within 30 days of completion of a nationally recognized qualification or skills set. A student has the right to contact ASQA at any time before, during or after a complaint has been lodged with MIBT. ASQA Complaints Forms are available from <http://www.asqa.gov.au/forms.html> and can be submitted to:

Complaints Team
Australian Skills Quality Authority
PO BOX 9928
Sydney NSW 2001

Or via email to complaints.team@asqa.gov.au

- students may also contact their relevant State Department,
- NSW Smart and Skilled Consumer support centre if they are completing a funded program <https://smartandskilled.nsw.gov.au/for-students/consumer-protection-for-students> , and
- QLD Department of Employment Small Business and Training Complaints and Appeals <https://training.qld.gov.au/apprenticeshipsinfo/information-resources/information-sheets/atis-002>

Appeals

The MIBT appeals process is concerned with a student's right to request change to decisions or processes of an official nature, usually in relation to academic or procedural matters.

In the case of a student's appeal against specific assessment decisions, the student should first discuss the decision(s) with the relevant trainer or assessor and request re-evaluation. The trainer or assessor will hear the student's appeal, make fair judgement to the best of their ability as to whether change(s) are required and then discuss their final decision with the student.

If the matter cannot be resolved at a local level or if the complainant is not satisfied with the outcome, either the complainant or the respondent can refer the matter to the training manager or the dedicated consumer protection officer.

If the student is still not satisfied with the resolution of the appeal or compliant after following the procedure, the student may contact ASQA and lodge a written complaint as outlined above.
